

AURA Scan & Report ~of & for ~ RAVEN.. 7-25-2013 @ 10:36 am CT

This is what was perceived AT THE TIME of the Scan.. – it WILL change

Current Energy disruptors? (physical people who tend to throw her off balance)

There were 6 living persons seen as causing her stress – 3 males and 3 females.

Snapshot Chakra Scan of the 7 primary energy centers in the physical body

Crown Chakra	open
Third Eye	fluttering
Throat Chakra	40% closed
Heart Chakra	1% closed
Solar Plexus	10% closed
Sacral Chakra	20% closed
Root Chakra	2% closed

Primary Aura color(s) –

Yellow

Orange

Blue

We did not check for redness in the physical body, after we found attachments.. George called Deborah with a brief explanation and will send this report shortly to Her via email, as Raven is fragile at the moment..

Attachments? **yes** – 2 – appearance of 4 hands on her Mind/brain area

Breaks in the Aura? **No** (*there were no Dark Forces evident*).

Also Perceived: a Thought Form in the area of heart space – appearing in the shape of an open umbrella.

Recommendations: It would be useful for Debora to learn more about what is going on here and the work George and the Team do. Understanding what these readings signify and the steps that can be taken to avoid problems in the future will be Very helpful for ALL concerned. There was, at the time of the scan, an indication that Raven may try to exit again in 3 months.. *She was Angry and Heart-broken at the same time.* We WILL take action to clean the attachments, but there is more that may be done to insure a better outcome – for Raven, Debora and all concerned.
